*Examiner's Statement of Reason(s) for Allowance*

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art of record, i.e., U.S. Patent No. 5,619,716 to Nonaka et al. ("Nonaka"), taken individually or in combination, fails to teach a system and method for managing system configuration across a network. Specifically, Nonaka fails to teach that an update recognizer program is sent from a selection server to a client which then executes the recognizer program to determine if an update is applied (see claims 1, 4, 9, 12 and 15).

Nonaka, in contrast, teaches that a redirector, stored in a client machine, is started and is to notify the version information of its own to a configuration management program located in a server.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
